*the Continuing Registration of voters.*

The public is hereby informed of the following clarifications on issues raised during the Pre-Bid Conference of 14 August 2008:

**In the Matter of Computation on the Volumetric Weights of Cargoes.**

The pertinent provision in the *Terms of Reference*, provides:

“x x x **Sec. 18. Charging of rates.** - In the quotation of rates, the following general parameters shall be considered in the bid offers:

**18.1. Per kilogram or actual volumetric weight**, for cargo movement using air, sea or land transportation, whichever is higher.

Volumetric weight of cargoes shall be computed according to International Airfreight transportation Association (IATA) standard, which is volume weight in kilos equals length x width x height in centimeter (cm.) divided by 6000.

x x x

The above *divisor* of 6000 shall be used in computing the volumetric weight of cargoes moved through airfreight and via the four (4) “sectors” serviced by the Philippine Airlines (PAL). Outside said areas, and where relatively smaller aircrafts ply, the divisor 3500 is to be used in determining the subject volumetric weight.

**In the Matter of the Documentary Requirements for Purposes of “Eligibility Check.”**

Specially enumerated in the *Checklist for Accreditation of Prospective Bidder*, are the following documentary requirements:

“x x x **B. TECHNICAL DOCUMENTS**
